WARNING

FAILURE OR IMPROPER SELECTION OR IMPROPER USE OF THE PRODUCTS AND/OR SYSTEMS DESCRIBED HEREIN OR RELATED ITEMS CAN CAUSE DEATH, PERSONAL INJURY AND PROPERTY DAMAGE.

This document and other information from Heavy Motions Inc., its subsidiaries and authorized distributors provide product and/or system options for further investigation by users having technical expertise. It is important that you analyze all aspects of your application and review the information concerning the product or system in the current product catalog. Due to the variety of operating conditions and applications for these products or

systems, the user, through its own analysis and testing, is solely responsible for making the final selection of the products and systems and assuring that all performance, safety and warning requirements of the application are met.

The products described herein, including without limitation, product features, specifications, designs, availability and pricing, are subject to change by Heavy Motions Inc. and its subsidiaries at any time without notice.

Please note: All parts supplied are Heavy Motions[®]. The use of other manufactures' names, part numbers, descriptions or trademarks is for cross reference and informational purposes only.

Section 1: Mechanical PTOs HM589

The HM589 Series A Two - Gear Mechanical Transmission PTO

The HM589 PTO is simple to install, with it's **8 bolt configuration**, which conforms to most manual transmissions, such as Eaton Fuller, Tremec, Mack, etc.

The housing and flange are cast iron and the bearings are heavy duty, ensuring a long life.

The PTO is air-shift controlled. It is sold as a kit, which allows for easy maintenance. Often used in utility trucks, dump trucks, trailers, fire & rescue vehicles, snow and ice, and more.

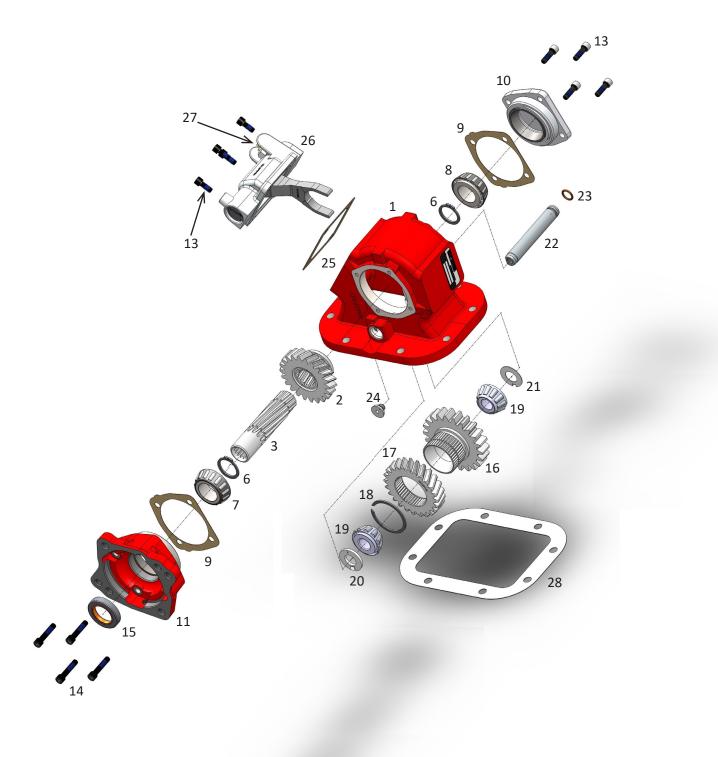

Key Features

- 8 bolt configuration
- Cast iron
- Multiple gear ratios and output options
- Available in Z Flange Deep Mount (Mack Manual Transmission)

Applications

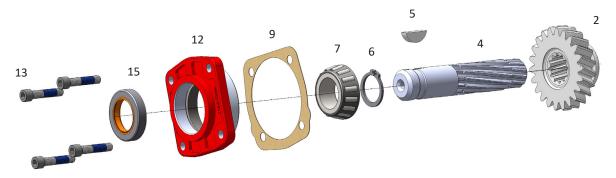

- Utility trucks
- Dump trucks
- Dump Trailers
- Fire & rescue vehicles
- Snow and ice
- More

Section 2: Allison 3000 & **4000 Series PTOs H380**

The H380 Series Hotshift Hydraulic 10-Bolt PTO

The H380 features electric-over-hydraulic shifting. It can be used in a wide variety of applications, and features an intermittent torque rating of 301-400. The 380 Series is interchangeable with many competitive models on the market, and fits Allison 3000 and 4000 series transmissions.

Technical Specifications:

Output Flange:
Intermittent Torque:
Lubricant:
Output Power:
Output Shaft Type:

Shift Type:

Mounting Type:

SAE B Flange 301-400 lb-ft, 501+ Nm P=Pressure Lube 51+ kW, (68HP) Spline, SAE B (7/8" - 13T) Spline, SAE BB (1" - 15T) SHAFT 1¼" Keyed Shaft - 5/16" Key Powershift (Hydraulic) Continuous Operation: Yes 10-Bolt

Key Features

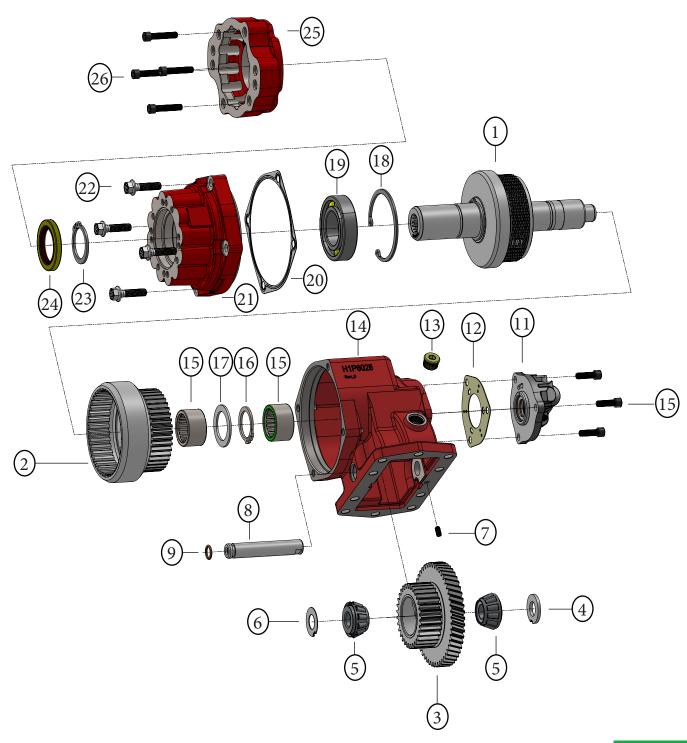

- Cast Iron
- Rotatable Flanges
- Continuous-Duty Torque Rating up to 390 ft-lbs

Applications

- Oil & Gas
- Truck Cranes
- Refuse/Waste
- Dump Trucks
- Fire & Rescue
- More

Section 3: Rear Mount PTOs

The HTF4033-4036 Series PTO

Rear mount PTOs are generally easier to install than their side mounted cousins, and while standard in Europe for many years now, is becoming more popular in the United States. Heavy Motions is the exclusive American provider of Aber Hydraulic's rear mount PTOs. They are popular on M-Drive and Volvo I-Shift Transmissions. It replaces OEM and other manufacturers rear mount PTOs

Key Features

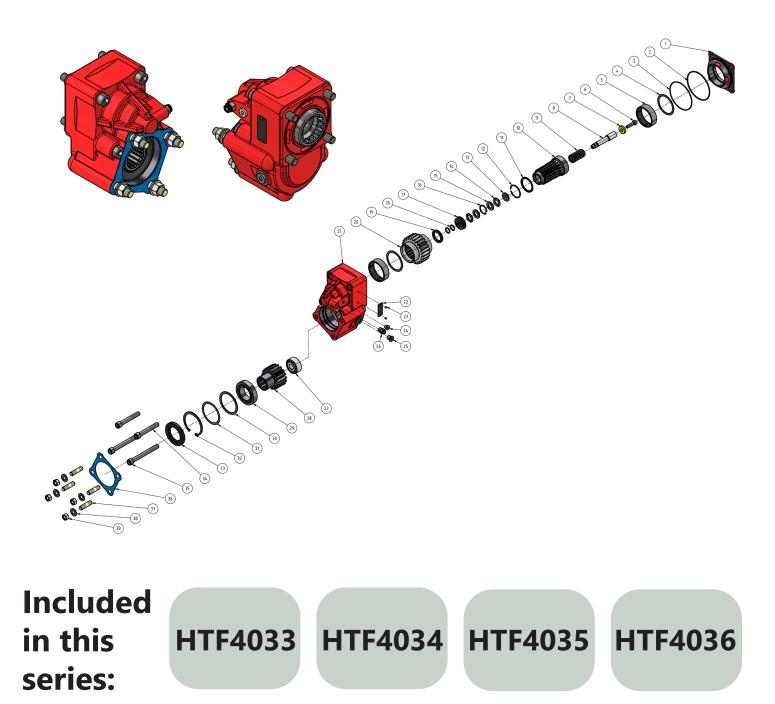

- Compact Design
- Multiple Ratios Available
- 8 Tooth DIN 5462 Output
- Easily switch DIN shaft options with adapters

Applications

- Utility trucks
- Dump trucks
- More

PTO Ordering Guide

A helpful guide for how to place orders

Transmission Make and Model Number:

This is the most important factor in the PTO selection process. Not all 13 speeds are the same.

Which Side? Driver side (left) or curb (right) or bottom? Make sure that you are on the correct side of the application page.

What % or What RPM? Based on what is to be driven, don't leave it up to your customer.

Does Rotation make a Difference?

It will for product pumps, blowers, and when your customer is using their own hydraulic pump.

What are you driving with the PTO?

Is the truck stationary or moving while using the PTO?

- How demanding is the application?
- Is this application intermittent or continuous duty

Direct Mount Pump/PTO Combo? Always select the largest spline type available for direct mount option.

Cable, Air, Electric/Air, or lever Shift Method? Generally speaking, larger trucks will use Air Shift, smaller trucks will use either Cable Shift or Lectra Shift and moving applications

Examine the Vehicle and Transmission for Obstructions and Interference of PTO and Accessories.

should consider Clutch Shift

This is the installers responsibility. There are many transmission/chassis combinations, and your customer needs to know the their truck's needs before placing the order

Warranty

HEAVY MOTIONS, INC. PTO WARRANTY

The Heavy Motions PTOs and other parts covered in this catalog are warranted for a period of (2) two years (24 months) from the date of service or 2-1/2 years (30 months) from date of build against any defect in material and workmanship which existed at the time of sale by Heavy Motions Inc., according to the following provisions, subject to the requirements that the PTO must be used only in the appropriate applications and following the Installation and Owner's Manual instructions.

If during the warranty period the PTO fails due to a defect in any part in material or workmanship that existed at the time of the sale by Heavy Motions Inc., the defective part will be repaired or replaced, at the discretion of Heavy Motions Inc., at no charge, if the defective part is returned to Heavy Motions Inc. with transportation prepaid. Authorization from your sales representative is required to initiate the warranty.

WARNING: The above warranty shall terminate if any alterations or repairs are made to the PTO other than at Heavy Motions Inc.

The foregoing warranty is in lieu of all other obligations and liabilities, including negligence and all warranties of merchantability and suitability, expressed or implied, and state Heavy Motions' entire and exclusive liability and buyer's exclusive remedy for any claim of damages in connection with the sale, repair or replacement of the above goods, their design, installation or operation. Heavy Motions Inc. will in no event be liable for any direct, indirect, special, incidental or consequential damages whatsoever, and our liability under no circumstances will exceed the contract price for the goods for which liability is claimed.

Heavy Motions Inc. is not liable for any repair related cost incurred to the Buyer at any time if the repair is conducted by the buyer without written authorization from Heavy Motions Inc.
