WARNING

FAILURE OR IMPROPER SELECTION OR IMPROPER USE OF THE PRODUCTS AND/OR SYSTEMS DESCRIBED HEREIN OR RELATED ITEMS CAN CAUSE DEATH, PERSONAL INJURY AND PROPERTY DAMAGE.

This document and other information from Heavy Motions Inc., its subsidiaries and authorized distributors provide product and/or system options for further investigation by users having technical expertise. It is important that you analyze all aspects of your application and review the information concerning the product or system in the current product catalog. Due to the variety of operating conditions and applications for these products or systems, the user, through its own analysis and testing, is solely responsible for making the final selection of the products and systems and assuring that all performance, safety and warning requirements of the application are met.

The products described herein, including without limitation, product features, specifications, designs, availability and pricing, are subject to change by Heavy Motions Inc. and its subsidiaries at any time without notice.

Please note: All parts supplied are Heavy Motions®. The use of other manufacturers' names, part numbers, descriptions or trademarks is for cross reference and informational purposes only.

ORBITAL MOTORS

KEY FEATURES

- Low Speed - High Torque
- Compact Design
- Smooth Operation
- Bi-Directional Rotation
- Wide Application Range

Heavy Motions orbital motors deliver reliable, high-torque performance where it counts. They are designed to handle the demands of mobile and industrial hydraulic applications, providing smooth operation and dependable performance in demanding conditions.

With high starting torque and strong low-speed performance, they provide consistent power and control across a wide range of operating conditions. Their compact, durable design makes them ideal for applications such as conveyors, augers, winches, spreaders, sweepers, and agricultural equipment.

Multiple displacement and mounting options available.
